BIOGRAPHY

Tim Terrentine is the Founder and Chief Translator at Translator's Consulting Group, where he helps leaders turn complexity into clarity and culture into performance.

With more than 20 years of executive leadership experience across corporate, nonprofit, government, healthcare, education, and economic development sectors, Tim understands the real pressures leaders face. His work focuses on helping leaders build organizations where dignity, clarity, consistency, and courage shape how work actually happens.

Known for his ability to name patterns others feel but struggle to articulate, Tim blends lived leadership experience with practical systems that align teams, strengthen communication, and drive execution. As a speaker, facilitator, and coach, he doesn't aim to perform — he aims to translate, helping leaders see clearly, act intentionally, and build cultures where people feel like somebody and performance follows.
